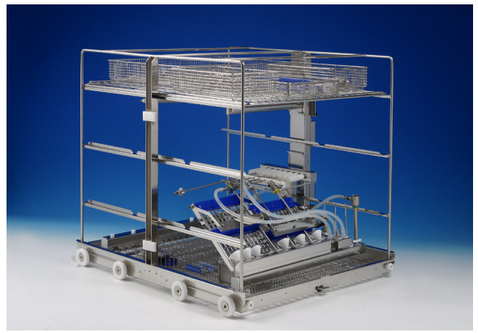
Getinge 86-series



START

Visually check the accessories of the machine with regard to intended use and function, eg blocked ducts or damaged and missing parts that might adversely affect the performance of the machine. Water must be able to flow freely through the ducts of hollow instruments.

Load the items to be washed on to the wash trolley as described in the instructions for achieving the intended cleaning and disinfection.

Run the trolley into the machine until it comes up against the stop.

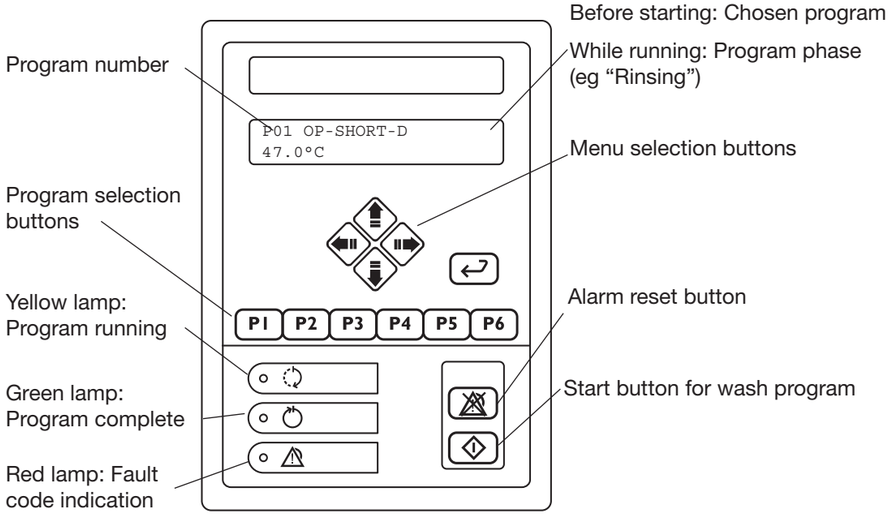
Make sure that the spray arms can spin freely. Check that the docking is in contact with the chamber docking and close the door.

Choose a program for the goods in question.

Start by pressing ⏻. For ten seconds, the program can be aborted by pressing ⏻.

END OF PROCESS

When the process is complete,
a green lamp lights up.
Unload the machine.
Close the door.



HANDLING ALARM

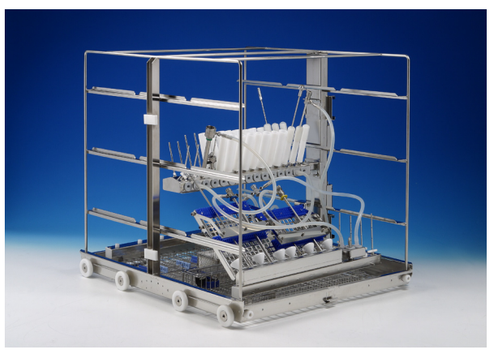
“Add detergent 1”	alkaline
“Add detergent 2”	acid
“Add detergent 3	dose 3
“Add detergent 4”	dose 4

All handling alarms are reset.

ACKNOWLEDGING A FAULT CODE

Acknowledge the fault code as follows:

- Note the fault code
- Cancel the acoustic signal by pressing 🔕. The machine remains locked but the program has been stopped. The display shows the password entry menu.
- Correct the fault or call service personnel.
- Enter the password (558387) using the arrow keys and press ↵. All liquid is drained from the machine and the soiled-side door is unlocked*.
- Open the door and remove the items. The items in the machine are not clean and must be washed again from the beginning with a new program. If the items are still hot, handle them with care to avoid burns.



* If the drain pump is faulty, water cannot be drained from the machine and the fault cannot be put right until the door has been opened. The soiled-side door is unlocked as soon as the password is confirmed.

NOTE: The items in the machine are not clean. Start a new process.
For further information see the instruction manual.

CLEAN HANDS ON CLEAN GOODS!

NOTE: The power must be switched off before any service are made!
